VECTORCIDE

VC SHIELD

MOSQUITO REPELLENT PAINT

VECTORCIDE

VP Shield is a polymeric paint with unique tiny micro-capsules within its surface. They will not break when the paint is touched or wiped but burst onto a mosquito when its pin-like legs rupture the capsules.

VC SHIELD

- Apply as you would a paint Dries to a protective coating
- 1 litre covers 30-35 square metres
- No environmental impact
